

Organic Vision's Issue 70.2016
COMPANY NEWSLETTER SEPTEMBER 2016

WE HAVE JOINED THE HONG KONG HEALTH FOOD ASSOCIATION (HKHFA)

Organic Vision is proud to announce that we have become a member of The Hong Kong Health Food Association (HKHFA), a non-profit organization that helps promote the local health food industry. Being a member of HKHFA ensures that Organic Vision will always work alongside policy makers to ensure that our products, and how we market them are always trustworthy and honest. We are always looking to educate the public on health and nutrition concerns, never to exploit them for profitable gain.

WELCOMING ORGANIC VISION TO THE HKHFA

Our company's CEO Afreen Khan and Operations Manager Nicholas Ng had the honour of being invited to attend the quarterly Welcome Dinner hosted by the Hong Kong Health Food Association at the Sportful Garden Restaurant at Tsim Sha Tsui. They enjoyed a scrumptious luxurious Chinese banquet, complete with abalone while mingling with and getting to know new and old members of the Association. There were a total of 6 new companies including Organic Vision which were accepted into HKHFA during this quarter. This special dinner was also attended by the President Calvin Chan, CEO of Catalo, and 3 Vice Presidents Nasser Khan, Vivienne Chou and Anson Au. A new Treasurer Patrick Yeung was welcomed, taking over Avis Chau. Afreen and Nicholas seized the opportunity to network, establishing new business relationships while discussing potential collaborations for the future. The evening was an overall success!

Thanking Avis Chau for her work as Treasurer for the HKHFA

Afreen Khan and Nicholas Ng with President Calvin Chan and VPs Nasser Khan and Anson Au.

JULY'S AWARD NIGHT WAS A HUGE SUCCESS!

Our evening started with a bang with our 2 energetic MC's Harvey & Calvin, enlightening us with what it means to be a Consultant. We were all encouraged to hear the experiences of the winners of both the Retail Silver and Gold Awards, to learn about how they successfully accomplished their business target goals. Excitement filled the room as video footage of the company's latest trip to the South of France and Monaco was aired. Our audiences were enthused as we aired our Asia Travel Incentive Award Destinations of Japan's Nagoya and Malaysia's Sabah videos, full of their own unique cultural attractions and landscapes. We all listened intently to Frankie and Ashley, both who worked hard in winning our trip to Sabah. The audience was amused as the Best Dressed Award of the evening went to Ashley who was decked in a beautiful ethereal sky blue dress, who also wowed us with

her powerful speech about accomplishing your dreams and overcoming negativity. The highlight of the evening was nonetheless the announcement of Organic Vision having successfully joined "The Direct Selling Association of Hong Kong"! Many thanks to all our attendees, staff, distributors and participants for making this evening a huge success!

PRODUCT OF THE MONTH VEGAN OMEGAS 3-6-9

Come check out our 2 health talks on **Sept 3rd and 24th** where we will highlight how this product will help you improve your brain and joint health!

CONGRATULATIONS TO OUR NEW STAR CONSULTANT

Our hardworking distributor Lam Long Sze, Anny had the privilege of receiving her very first Single Star Consultant Award on our past Awards Night! When asked about how she accomplished this goal, she jokingly related "Well, this was supposed to be a secret, but it turns out that my colleague who introduced me to Organic Vision only shared about this business opportunity a year after she joined the company. So I should have gotten this award last year!" But in all seriousness, she expressed her gratitude for OV's business opportunity, as it gave her a chance to rebuild herself as a woman after being fired from her so called stable secure job at a large bank. In conclusion, she encouraged the audience to work hard to accomplish their dreams as she has done and will continue to do!

Lam Long Sze, Anny

NO MORE MEDICATION FOR HIGH BLOOD PRESSURE

Past: Hi! My name is Fok Yuk Ling and I work as a nurse. I have been suffering from hereditary high blood pressure for many years since I was very young, so I've been taking medication for my condition for 15 years. Being a nurse, I have complete trust in prescription drugs. No matter what illness you suffer from, I believed any medicine could solve the problem. Walking up a flight of stairs was very difficult I was always out of breath and had to stop many times. I was very worried about my health and thought that there was no way out of my illness.

Present: After I was introduced to Organic Vision by Annie whom I met at a clinic, I started to take Vegan Omegas 3-6-9. To my surprise just after 3 weeks, I felt less breathless walking up a flight of stairs. I thought to myself, since I have to take my medication everyday, why not take supplements on the side as well if they work so well? At first I took it twice a day morning and night. Now I only take it once a day because I've stopped taking my medication for months now! As a nurse, I never believed I would ever believe in health supplements but now I do seeing its effects on my own body! In addition to Vegan

Omegas, I also take Reishi Plus together with a glass of Aloe Mix-my very own triple defense pack! I have full confidence in OV's products now!
