

親愛的直銷商，

最新一批益生益腸精華的標籤於印刷上出現錯誤。
新標籤上的益生菌CFU(菌落形成單位 colony-forming unit)
被錯誤列印為「140億CFU」，
正確的數量仍為150億CFU (每膠囊75億)。
產品配方和成分與以前相同，沒有任何變化。

不便之處，敬請原諒。

如果您有任何問題，請隨時與我們聯繫。

感謝您的關注。

Dear Distributors,

We'd like to inform you of a printing mistake on our Prime Probiotics label in our recent batch of this product. Some of you may have noticed that the Probiotic CFU count is listed as "14 billion CFU" on the new label whereas before it was listed as "15 billion CFU". This is a printing mistake, the correct amount is still 15 billion CFU (7.5 billion per capsule). The product formula and ingredients remain the same as before, nothing has changed.

We are sorry for any inconvenience caused,

Please feel free to contact us if you have any problems.

Thank you for your attention.
