e-Business Kit

We are going greener by using less paper in OV Office so we hope for your support in this environmentally friendly goal. We are launching our NEW e-Business Kit that can be downloaded when a new Distributor Joins. So all new Distributors have an option to download this info or read it online without any paper used.

We proudly announce that starting 1st April 2009, e-Business Kit will be launched and the existing Business Kit that includes the green box, company manuals, etc. will no longer be given out. We thank you all for supporting us in our endeavor to going greener!
