

# Reishi Plus

**Strengthen your Immune System  
and beat illness**

# Reishi Plus

Organic Vision Limited

Prevention over cure - that's what we strive for ourselves and our loved ones. To nip disease in the bud before it has a chance to bite us! How do we achieve this practically on a daily basis?

## BENEFITS for you

Protect vital organs from degenerative diseases!

Shield against carcinogens!

Tackle stress and hormonal balance!

Enhance oxygen uptake and sleep quality

## 5 SUPER MUSHROOMS

We have integrated **5 Certified Organic Medicinal Mushrooms** - Red Reishi, Shiitake, Maitake, Coriolus and Cordyceps, to create a product which acts as a potent ammunition against illness and disease.

# HOW is this possible

These mushrooms have been traditionally recognized and used in Asia for centuries because of their powerful healing benefits. Today, numerous studies in modern Western science reveal that these mushrooms contain powerful, biologically active compounds with significant protective effects.

**Red Reishi** which according to the *Journal of the Society for Integrative Oncology*<sup>1</sup>, is well known for activating monocytes and human T cells - fighting infected cells and antigens before they can make us sick. Research has shown that the extracts of Reishi mushrooms can stimulate cognitive activity and display **neuro-protective** effects.

**Shiitake**, mushrooms contain the compound lentinan, which helps **prevent chromosomes and DNA from oxidative damage**, as stated in the *American Cancer Society*<sup>2</sup>.

**Maitake**, as revealed by *The Journal of Nutrition and Cancer*<sup>3</sup>, contains Grifolan, a beta-glucan polysaccharide has been known to activate macrophages, T-cells, natural killer cells, and neutrophils, which **increases your resistance against degenerative diseases**, helps your body remove cellular wastes, and speed up recovery from tissue damage.

**Cordyceps**, as shown by *The Journal of Pharmacological Sciences*<sup>4</sup>, has the ability to improve our energy levels, by increasing the amount of oxygen uptake in the body. It helps **dilate the lungs airways**, providing more oxygen to our blood. Our entire vascular system is benefited by Cordyceps ability to regulate blood pressure, strengthening the muscles of the heart and improving circulation.

**Coriolus**, as reported by the *Current Medicinal Chemistry*<sup>5</sup>, contains two specific polysaccharides, PSK and PSP, which have been shown to help inhibit the growth of damaged cells. The Coriolus mushroom further activates the production of Killer Cells, helping to **combat the risk of auto-immune disorders**.

# WHY Organic Vision

## Unique

Combined benefits of all 5 mushrooms into just one capsule! Can be taken daily as a multi-functional supplement. Added supplementary ingredients enhance this product's overall vitamin, mineral and amino acid content.

## Potent

We use a unique process which allows Reishi Plus to retain the essence of the mushrooms for optimum benefit! It works synergistically to heal and balance multiple areas of the body at the same time.

## Effective

Results can be felt very quickly after consumption! Acerola cherry has also been added as an extra boost of vitamin C for optimal absorption.

## Quality

We adhere to the highest standards in ingredient selection, harvesting, manufacturing, and certification. We aim to protect our environment, using the most environmentally safest forms of production.

## Suggestions

### Maintain

Enhancing the immune system

**2 capsules per day**

### Balance

Balancing an overactive immune system

**4 capsules with each meal**

### Fight

Fighting the cold, flu or bacterial / viral infection\*

**4 capsules per hour**

**\*Triple Defense:** We recommend taking this alongside our Bee Young and ImmuStrong for maximum effectiveness

**Disclaimer:** This product is not a form of medicine and does not treat any kinds of illnesses. Those suffering from chronic diseases should consult a physician before taking any health supplement.
