

COMPANY NEWSLETTER JANUARY 2020 Organic Vision Issue 90.2020

INSPIRATIONAL DEVELOPING INFLUENCE TRAINING SESSIONS

The fourth Developing Influential course (DI) has completed half of its classes.

The course is personally coached by two of our company founders who have more than 30 years of direct sales experience-Paul and Afreen.

This course has been designed to teach you on how to influence others, build your own business team, become an influential business leader, and to sell yourself.

Our two coaches have designed and prepared various

inspirational content for each class, which include the topics: "21st Century Education Style", "Activating Your Inner Potential", "Dancing with Fear", "Six Core Needs of Humans" as well as many other motivational topics, each of which has benefited distributors in the classroom.

Among them, the "21st Century Education" has enabled distributors to truly enjoy their learning experience. The "21st Century Education Style" pursues a more active and assertive way of learning. It is no longer involves students sitting passively in their own seat, keeping quiet,

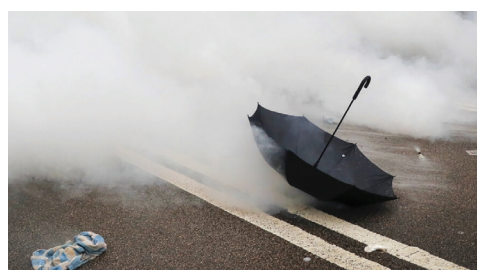

listening, and taking notes. Each lesson includes more free expression, interaction, games, a sharing of personal experiences, knowledge, enabling our students to enjoy the classroom better and be educated in a relaxed atmosphere.

TEAR GAS RESIDUE

The health issue that has attracted the most attention and concern recently in Hong Kong is how tear gas affects the human body.

Due to recent events, the health lecture held on November 30th was "Tear gas is harmless or harmful? Will it have long-term effects? How to detoxify it out of

our bodies?" This discourse shed light on the various types of tear gas bombs used in the latest pro-

tests, and their effects on the human body. It also shared tips on how to detoxify and solve various health issues that have been generated by exposure to tear gas.

If you want to know more information about the tear gas and detox, just listen to the podcast on various broadcast platforms

To celebrate the anniversary of the establishment of Organic Vision, the company will launch an annual discount to thank the distributors who have supported OV all these years!

The 18th Anniversary Offer will officially start on November 30, 2019. Each Saturday features a

different offer, as well as discourses on various topics. These include topics of recent interest and concern such as: "How harmful is tear gas? What are the long-term effects? How do we go about detoxing?"

Other health issues such as: "Stopping high blood pressure

medication-is it really possible?", "How to stop taking diabetes medication?" will also be discussed.

On the first two Saturdays of January this year, we will be featuring three product discounts, and two thought provoking health talks. The topics include: "Stopping cholesterol medicine-is it possible?", "How to reverse the damage of a fatty liver?"

Afreen, one of the founders of our company, who has over 30 years of experience in the health and nutrition industry, will be giving you the latest health information as our keynote speaker. Don't miss it!

2020 JAN TOKYO WINNERS

The year 2019 has come to an end, and Organic Vision will be announcing the winners of our Travel Incentive Award to Tokyo on our upcoming awards evening on Saturday January 18, 2020.

In order to encourage all our Developing Influence course participants, our company has introduced 2 extra travel award incentives for them to work hard towards winning. This will hopefully motivate everyone to put the principles we have learnt in class into practice-to assert

oneself and inspire people around them.

Winners of our Tokyo Award will be invited to accept their prize on stage, and share their thoughts and feelings about the reward for their hard work.

If you would like to support our team of business builders, enjoy the invigorating atmosphere and share the joy of our winners, don't miss out on the "OV Travel Awards Presentation Ceremony" which will officially start on **January 18, 2020 (Saturday), at 3 pm.**

OV PODCAST

Missed out on the latest health talk, or want to revisit specific discourses to share useful health tips with your friends?

Don't worry, Organic Vision has been providing different health lecture recordings on various

broadcast platforms, where you can access anytime, anywhere! Topics which have drawn the most attention recently include: "How harmful is tear gas? What are its long-term impact on our health? How do we detox given Hong Kong's latest environ-

ment?" Different health lectures from December will also be available to listen and download, including "Stop taking high blood pressure medication-is it possible?" "How to reverse diabetes?" We will continuously update our
