Christy, Single Star Consultant

Not only did these ladies win multiple awards from their hard work building their businesses, Sandy and Sophia also won the Best Dressed award, under the theme of

the night - Sparkles!

A highlight of the night was Organic Vision's Top 10 Events of 2017. Through the encouraging events of the past year we hope that we can continue to do even better together in 2018!

Announcing winners for the Traveling Incentive Award is always one of the most exciting parts of an Awards Night! This year, there were 12 winners for the 2017 2nd half Bi-annual Travel Incentive where they will be traveling to Jeju Island in Korea! Of the 12, 4 hardworking Distributors also won the chance to visit the US this year as well! The winners shared how they worked hard to achieve their goals and win the travel incentive. This no doubt motivated those in the audience to reach for their own goals and dreams!

What a great way to finish our Awards Night! There were some fantastic photos taken that night, so go ahead and check out all the gorgeous photos on our website!

Maggie Ngan

Double Star Consultant

Back in 1996, I was a simple housewife. My three kids were my sole focus. However due to financial pressures I had no choice but to go back into the workforce as a business woman. Not long after, I had to take over a business that I barely knew anything about in order to keep on supporting my children financially.

From learning how to use a drill, to delivering furniture to customers during a Typhoon, I had to do everything on my own. Finally, my hard work seemed to finally pay off. I was no longer struggling and I could take a breath and slow down a bit.

But that all changed in an instant. Due to political and economical changes, my business started to deteriorate rapidly. I was so frustrated and wanted to give up. I started to spiral down emotionally. I had no confidence, no idea what I wanted to do with my life, no future to look forward to. All I could think about was ways to earn as much money as possible to support my family.

By the time I came to my senses, I had lost not only my time and freedom, but also my health. I

became overweight and developed a serious health issue - cervical lesions. But at that low point, I found Organic Vision. Organic Vision changed not only my own life, but also the way I see myself and the world around me.

By following OV's detox plan for 2 months, I fixed my health problems with no medication or therapy. I even lost 38 pounds, and now have my 21-year-old figure back! This has breathed new life into me. It has inspired me to start developing OV as my own business and source of income, whilst helping others with the products that helped me so much.

It is really hard to find a business where they provide you with the kind of support you need without having to take any risks. Not only that, but they provide you with health and, most importantly, freedom and time! A business that

only requires you to put in a few years of hard work to establish your own business team and then reap the benefits of it afterwards for the rest of your life! How can you miss on such amazing opportunity?

OV has been so supportive this whole time, helping me to picture my future life, giving me strength to become more positive and defeat any obstacle stands in my way.

After having my own business team, I now realize I am no longer fighting alone, I got OV and my family's back. It gives me the encouragement to fight through anything.

I now am striving to continue working harder and harder to help myself and others around me to fulfill our goals and dreams!
