

COMPANY NEWSLETTER JANUARY 2020 Organic Vision Issue 91.2020

A UNIQUE TRAVEL AWARDS CEREMONY

On Saturday evening, January 18, 2020, Organic Vision held a ceremony honoring the winners of our Travel Award to Tokyo. Many friends and families came to support these winners, and to share the joy of their hard earned efforts.

As a company, we have decided to

in order to encourage our distributors and participants of our Developing Influence courses, to be bold, courageous and take the initiative to exert themselves in their business and self-development.

We began each segment of our awards ceremony with a fun game to break the ice and put the audience at ease. The winners of our Tokyo trip award drew out names at random from a lottery. These few lucky individuals then picked a friend from the audience to play a game designed by our MCs. If they won the game, they received a small gift.

We gave out prizes to winners of the General Travel, Nutrition Course and Developing Influence Awards.

Ronnie, who won the General Travel Award, gave a small speech about her own personal experiences developing her business under the theme of "laziness".

Mellina who won with the General Nutrition Course Award, shared her appreciation for her newfound knowledge on health and nutrition. We all enjoyed a warm, vibrant and inspiring evening.

Are you looking forward to the next upcoming travel awards of 2020?

Well, the location of our first 2020 Travel Awards has just been announced, which is Phuket, Thailand! A sunny, beachy paradise island that offers exciting activities without sacrificing comfort, and a popular tourist destination with a blend of Asian and European cultures.

Why not start setting your goal today on winning this upcoming exotic Travel Award, and become the next lucky person to win an all-expense paid for luxury holiday!

DEVELOPING INFLUENCE COURSE GRADUATION

The 4th Developing Influence Course has been officially completed.

We held our final class on February 3rd, 2020, as well as hosted the graduation ceremony. The ceremony was hosted by a new student-Apple.

Apple was a charming and delightful MC. She showed a very different side to her usual shy and quiet self.

She was vibrant, enthusiastic, and lively, and did a great job in bringing in a great atmosphere to the event!

On the day of the graduation ceremony, two of our Developing Influence coaches — Paul and Afreen — presented all graduates certificates of merit, congratulated and encouraged all students.

A huge congratulations again to all

the Developing Influence course participants who graduated successfully! We wish you all the best, and hope that you will continue to progress each day. We hope that you will apply all the valuable lessons you learnt from class, to become an influential and motivating person to those around you, while creating a brighter future for yourself and your family!

REAL LIFE STORIES-MANU PERRY

Since the age of 9, I've consumed an enormous amount of medications due to a severe migraine problem I have struggled for years, that affects only a small percentage of humans on earth. When I experience a migraine attack, it paralyzes me and I lose my vision. So because of this, I have undergone countless intense medical treatments since I was a child to try to control this health problem.

Recently, due to extra stress and fatigue, I have developed a variety of allergic reactions, for reasons unknown. My lips started to swell up, and I developed skin irritations and plaques all over my face and body. I realized that there was something very wrong with my immune system, and so I searched for natural ways to heal myself.

I was introduced to Organic Vision's detox program by my son, and I was intrigued by the fact that I could eliminate toxins from my body. After completing my detox program, my body went through some drastic changes. All of my allergies and allergic reactions disappeared! I was so happy to find an alternative healing method to my health issues.

Rather than taking traditional

BEFORE DETOX

AFTER DETOX

medicine, I took the natural route by detoxing and taking organic health supplements from Organic Vision. I learned to eat in a much healthier and balanced way, as I learned that everything is connected to what we put inside our bodies. For example, I found out how an over consumption of refined carbohydrates turns into too much glucose inside us, which causes all sorts of health problems.

Due to many years of an overuse of medications, I knew that my liver was overtaxed. So it was great to be able to do my liver flush and help clean and regenerate my liver. I also used to often struggle with diarrhea as well. After finishing my detox program, this problem went away and I was able to go to the bathroom normally! I even ended up losing 5 kilos, which was great, even though it was not my goal as I wasn't overweight.

I highly recommend Organic Vision's detox program to everyone, as it is a powerful tool that helps eliminate the toxins from your body and regenerates your cells, helping your body heal itself the natural and safe way!
