

## COMPANY NEWSLETTER NOVEMBER 2019 Organic Vision Issue 89.2018

### NUTRITION COURSE GRADUATION

With the completion of Organic Vision's first primary nutrition course, a graduation ceremony was held on September 30th. The students passed the course with excellent results!

In order to help everyone engage more in our nutrition curriculum, and to motivate all students to share valuable knowledge on health with friends and family, we have decided to provide 3 travel incentive awards. In order to qualify to win, each student must enroll in all our nutrition courses, pass with good results, invite sufficient friends to attend our health discourses, as well as to help their friends undergo our

detox program successfully.

The winners of our Travel Incentive Award were announced the same day on graduation, starting with **Vanessa, Jason and Mellina**, who won the third place.

**Melissa and Ashley** who won second place, and **Ducky** who won first place!

Congratulations again to all the winners, who graduated our nutrition course with flying colors and won their well-deserved travel awards! We sincerely encourage each one of you to continue learning and growing in knowledge on various aspects of health in order to help more people in our community.

Those who have graduated with great results in our primary nutrition course are now qualified to participate in our advanced nutrition course, which will enable them to graduate and qualify as professional detox coaches. Organic Vision will announce more details later on, so stay posted!

### ORGANIC VISION'S 18TH ANNIVERSARY!

Time is flying by so quickly. Just like that, Organic Vision is one year older!

In order to celebrate OV's 18th anniversary, the company will launch a discount each Saturday during the months of November to January to say thank you to

our dear distributors for their support.

This year's promotion period will begin on November 30th and end on January 11th.

We will announce more details about the offer later, so keep your eyes open and don't miss it!

Hi everyone my name is Pat and I am a retired school administrator. I would consider myself as quite a health conscious person. To stay healthy, I've used Organic Vision's products for many years now, so long I've lost count. On top of that I frequently go to the gym to exercise.

One day I was finishing up my work-out and was relaxing in the Jacuzzi when, suddenly I fainted. Thankfully I woke up rather quickly but I found my knee, lip and chin were bruised. I didn't feel too bad so I showered and went home. Upon arriving home though, the bruise started getting bigger and bigger and I started getting a headache. Some of my family and friends panicked and told me to go to the hospital

but I tried to remain calm. I applied some Bee Propolis but found it didn't do too much. I still didn't want to go to the hospital, so I tried to think of other home remedies I could try.

I was attending Organic Vision's nutrition course at the time and so the day after my accident I went to attend. As I walked in, everyone was shocked and asked what had happened to me. I explained and went to Afreen to ask for some help. She told me, "Take 6 Reishi Plus, 6 Hair Skin Bone, 6 Vegan Omegas, 6 Prime Probiotics and apply some Aloe on the wound." I followed her exact direction and within a week it had fully healed. You couldn't even tell it was injured anymore. The next week at the same course I showed

up and shocked Afreen, she exclaimed "What happened? It's gone!"

I'm really happy that I was able to use a natural way to heal my injury! Even my friends were amazed and asked if they could come and find out more about Organic Vision's products!

The third day after accident

The seventh day after accident

PODCAST

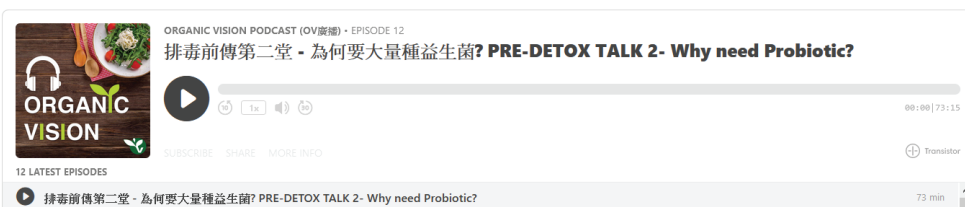

Have you missed out on some of our important talks recently? Interested in revisiting our various health updates? Organic Vision has just created a brand new podcast series, providing lectures on different health, nutrition and fitness subjects, including topics of focus driven by recent political events such as:

"Is tear gas harmful? What are the long-term effects? How do we

detox our bodies successfully? When anxiety turns into depression, how can we receive comfort and soothe our negative emotions?" If you would like to know more, check out Organic Vision's new podcast!

This podcast channel will be updated continuously. Various podcasts topics have already been uploaded so please feel free to check them out and tell us what you think.
