

COMPANY NEWSLETTER SEPTEMBER 2018 Organic Vision Issue 82.2018

A DAZZLING WHITE AFFAIR

Our second quarterly annual awards evening was held on Monday evening on August 6th. The atmosphere was buzzing, as lively dance performances were prepared for us by MCs Poxer and Hoi Ying, as well as their assistants Ashley and Hei.

The first half of the evening was filled with motivational speeches, including that of Organic Vision's founder. The winner of the Best Dressed award went to Melissa, who wore the best white ensemble of the evening, according to our White colored theme for the event. There were also many winners for the retail gold and silver awards.

During the second half of the

evening, the 3 winners of the 30 day weight loss challenge were announced, Hei, Janny and Vanessa. Congratulations for all your hard work and effort! The winners of the company's Travel Incentive Award were also announced, and these hard working business builders were invited up to stage to give a motivational speech on how they accomplished their target goals. What invigorating, inspiring speeches they were for all our distributors!

Let us all imitate the zeal and dedication of these business leaders and start our journey to winning these awards today! Start becoming an influencer and motivate others right now!

Cheung Kwok Hei
Rheumatoid Arthritis

I had a knee injury and tore my ligament, and it got rather serious. The Western doctor gave me some painkillers and steroid cream, which didn't really help much. So I decided to go visit a Chinese doctor, and after a week's time, things started to improve. My swelling went down, so I thought I had already healed myself. Until one day I started to notice that every time it rained, or the weather was humid, I would start to develop a dull, numbing pain in my knee joint! I decided to ignore the problem and went on with my life. Around 2 years ago, however, my knee became even worse.

One day, and I remembered this vividly, as I was usually a typical foodie who loves eating, I had completely lost my appetite while staring at a large buffet display of food. The reason? It was pouring rain outside and my knees were killing me. The pain was so severe I started sweating profusely, and my face went pale. My friend asked me if I was feeling ok.

It was at that moment that it hit me-I wasn't ok because I was suffering from a serious case of rheumatoid arthritis. The pain I was experiencing from my old injury was like being stabbed with a knife constantly on my knee! Even trying

to bend down while picking up something, I had to go very carefully and slowly like an old man! It became even too painful for me to exercise, even simple stretches became too difficult. I felt very depressed.

I decided to try out the acupuncture department at the hospital. However, the doctors there told me they would only be able to soothe my pain, but could not fix my old wounds and injury entirely. After 6 months, my knee did not improve very much, and I started to lose hope. I decided to stop my treatment and simply soothe my pain with essential and medicinal oils at home.

I was fortunate to be introduced to Organic Vision sometime later, and decided to try out some of the products. I had a few other minor health issues, which OV products were able to help me get rid of. So I thought to myself - I wonder whether OV could also help me fix my knee issue, one so severe even doctors told me it was nearly impossible to heal entirely?

I decided to tell my business partner at Organic Vision about my problem, and he suggested I try out the company's Chia Seed Oil-the product "Vegan Omegas 3-6-9". This product could help me repair my cartilage and soft tissue of my knee joint, and was anti-inflammatory, which meant it could help reduce pain.

I started out taking the suggested dosage for injury-10 capsules in the morning, and 10 capsules at night. After a period of time, I remember clearly one afternoon at home, there was a horrible storm outdoors. I accidentally dropped something on the floor and bent down to pick it up, only realizing all of a sudden that I didn't experience any pain whatsoever! The pain, knife stabbing feeling had disappeared! To confirm what I had hoped was true, I bent down to

squat a couple more times just to make sure. It truly felt like a miracle. The chia seed oil I had been taking was really working!

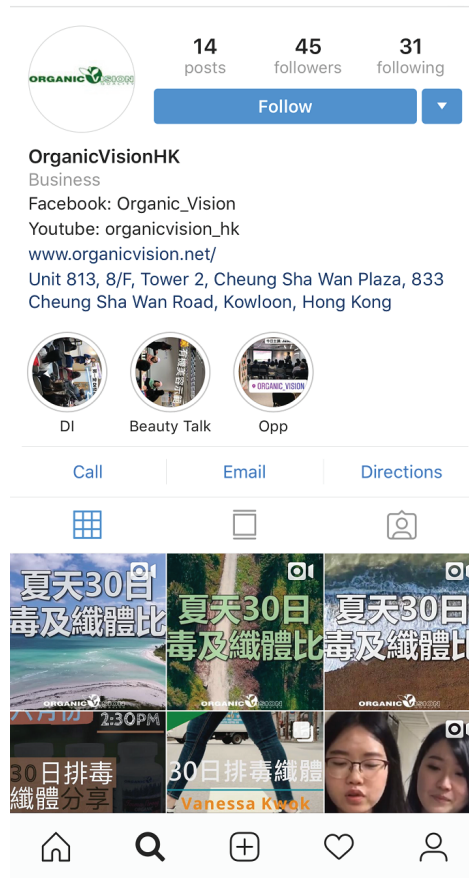

So ever since, I have continued to take my Vegan Omegas, and my rheumatoid arthritis has completely disappeared! Even when it rains, I don't experience any pain anymore. I can run outside, play sports with my friends and live an active, healthy lifestyle. I am so grateful for Organic Vision for creating such amazing products that have changed my life.

BRAND NEW SOCIAL MEDIA UPLOADS

In order to help more people get to know about and understand our Detox and Weight Loss Program, we have decided as a company to regularly post an experience on our social media platforms every Wednesday!

You will get the chance to get to know the weight loss and detox journeys of all our users through their interviews and videos. Those of you who do not want to miss out on any posts should quickly head over to our various social media platforms and subscribe to get our weekly updates!

2018 30DAYS DETOX & WEIGHT LOSS CHALLENGE 2ND PLACE WINNER - JANNY

Janny Yu

I participated in the 30 Day Weight Loss challenge last summer, and continued my Detox and Fat Burn program for 5 months, where I lost quite a bit of weight. My quality of health improved dramatically, too, as the few health problems that I had been struggling with, including high blood sugar, high blood pressure, fatty liver and chronic thyroid disease had all disappeared after 5 months of detoxing! I was absolutely delighted.

The reason why I joined in this summer's weight loss challenge again, was to try to use my incredible results to surprise and influence those around me. This time round the results didn't disappoint me at all! I managed to lose more weight, half of the total weight I had lost during the previous 5 months of last year. What a success that was!

I was thrilled to lose all that amount of weight in such a short period of

time, which would normally take twice the amount of time for most other people.

Unlike traditional weight loss methods, detoxing will not destroy your body, but rather make it

healthier and more attractive.

I sincerely hope that my amazing transformation will let others know, how the concept of detoxing truly works wonders! I would also like to inspire faith and confidence in others, which they too can trust in this amazing weight loss and health transformation program.

I have also shared my success story on various social media platforms. When placing my before and after photos next to each other...wow...what a difference. My belly in the before photo made me look like I was 6 months pregnant!

This has been somewhat of a breakthrough for me, as I am not embarrassed anymore of showing others my before pictures, to help others realize how precious it is to take care of ourselves and our health.
